Viva Verde GUIDE

Community Resources & Solutions for Green Living in Southern New Mexico

Welcome to the first Viva Verde Guide for southern New Mexico! Our goal is to connect community members with the local green goods, services and resources to be more energy efficient, save on energy costs, and to live more lightly on the planet. We want to promote local green businesses and organizations that are accessible to everyone and that contribute to more sustainable communities.

What are the most important things that we can do to be more energy efficient and to reduce our environmental impact? The Guide provides you with Green Living Tips to help you navigate through this process and offers you a directory of the local businesses and resources that can help you make green choices. Check out the Green Marketplace section for special offers and promotions for green products and services.

Thank you for taking action on behalf of our local communities and the planet. By doing our part individually, we can collectively achieve a vision for a healthy and sustainable future!

Sincerely,

GUIDE DEVELOPMENT TEAM
